EXPERIENCES

Entrusy Co, Ltd. (安純心股份有限公司)

Founder, Software Engineer

Oct. 2024 - Present

- Solely developed the entire Entrusy ecosystem, including the mobile app, website, management platform, backend services, and Google Cloud infrastructure.
- Implemented advanced app features, including encryption and privacy protocols, bilingual UI, instant messaging, voice alteration, speech-to-text, and AI speech assistant.
- Launched marketing campaigns, including 3 in-person events, achieving 200+ downloads and signups, and 500+ completed sessions since June 2025.
- Conducted 3 user tests, 2 surveys, and 10+ in-depth interviews, iterating features based on continuous feedback loops.
- Managed all company operations, including accounting, partnership outreach, event coordination, and regulatory compliance.

Big Object Inc. (核桃運算股份有限公司)

Senior Software Engineer, CEO Office

Sep. 2024 - Mar. 2025

- Independently developed the Geospatial Exploration module for Aralia within 1 month, improving usability and spatial data navigation.
- Reduced the backlog from nearly 300 tickets to just over 100, singlehandedly streamlining team workflow.

TUIC (臺北大數據中心), Taipei City Government

Full Stack Engineer

Apr. 2023 - June. 2024

- Proposed and solely executed the rewrite of Taipei City Dashboard, completing development in just over 1 month, resulting in improved performance, maintainability, and open-sourced code.
- Authored a comprehensive 48-section bilingual documentation.
- Developed interactive project sites for YouBike and Sinkhole data analysis, enhancing public accessibility to data insights
- Coordinated Taipei Codefest 2023 and 2024, ensuring seamless event execution, while also serving as speaker, mentor, and judge.

PROJECTS

One Premium

Designer / Developer

Jul. 2022 - Dec. 2022

- Self-taught front-end development within 3 months, completing 500+ hours of coursework and 5+ projects.
- Created ProntoMock, a rapid online mockup tool, as a final project.

EDUCATION

National Taiwan University

B.B.A., Finance Major, International Relations Minor

Sep. 2018 – Jun. 2022

- GPA 4.21 / 4.30 (Top 5%)
- 2x Dean's List Award

TECH SKILLS

Proficient in Major Front-End Frameworks and Libraries

Vue • React • Angular
Charting / Map Libraries

Competent in Design Tools and Common Conventions

Figma • RWD • Adobe AI
Da Vinci Resolve

Experienced in Building Back-End Applications

Node.js • Express
Go • Gin • Gorm
MongoDB • SQL

Skilled in Mobile App Development

React Native • Expo

Versed in Development Tools and Cloud Platforms

Git • Docker
Google Cloud Platform

CERTIFICATIONS

English (Fluent)

GEPT High Intermediate

Entrepreneurship

Taoyuan Social Enterprise Competition Finalist (2025)
